

BULLETIN ON CURRENT LITERATURE

OF INTEREST TO CRIPPLED CHILDREN WORKERS

Vol. 5, No. 4

April, 1944

Index

Numbers listed after each subject refer to the articles which bear these numbers in this issue of the bulletin. A complete index for the entire year will be issued in December.

- | | |
|--|--|
| Accident statistics - 190 | Physical therapy - 161,169,208,221 |
| Cerebral palsy - 162,165,166,202, 206 | Poliomyelitis - 174,191,220 |
| Child labor - 205 | Prosthesis - 164,217,218 |
| Convalescent care - 187,201,215, 219,224 | Recreation - 200 |
| Curative workshops - 161,169,171, 173,182,188 | Rheumatic fever - 185 |
| Education - 176,192,195 | Societies for cripples - 162,189, 194,208,216 |
| Employment - 163,167,172,175,177, 178,179,180,187,189,193,196, 213,215,223 | Successful cripples - 181 |
| Foreign programs for cripples - 177,198,199,210,213,224 | Treatment of crippling conditions - 168,183,214 |
| Nursing - 177 | Veteran rehabilitation - 170,172, 183,193,197,198,199,210,221, 223 |
| Occupational therapy - 161,184, 187,199,207,215,219,221,224 | Vocational rehabilitation - 203, 204,208,211,212,213,215,222 |
| see also: Curative workshops | Workmen's compensation - 163,167, 179,180 |

* * * * *

Any publication or article listed in this bulletin may be borrowed free of charge from the Bureau of Information of the National Society for Crippled Children. Bibliographies listing similar articles, or loan package libraries containing additional literature on any of the subjects discussed in these articles, will be sent to any interested person upon request.

Articles appearing in the bimonthly magazine, THE CRIPPLED CHILD, or in the bimonthly news letter of the Society, THE CRIPPLED CHILD BULLETIN, are not listed in this bulletin.

A list of periodicals in which articles listed in this issue originally appeared, together with their addresses and prices, is given on Page 7.

Bulletin on Current Literature

Prepared by Lillian Dowdell, Librarian

Issued monthly to affiliated state and local societies for crippled children, state agencies engaged in the treatment, education or vocational rehabilitation of cripples, and public or private institutions and agencies having Institutional Membership in the National Society for Crippled Children. Available also to other individuals and agencies who pay 50¢ a year to cover actual costs of materials and postage.

161. Aitken, Alexander P., M.D. Rehabilitation of the Industrial Casualty. Virginia Medical Monthly. Apr., 1944. 71:4:177-179.
162. Anderson, Hilma. [Address to] Spastic Club of Iowa. Iowa Society for Crippled Children and the Disabled, 404 Plymouth Bldg., Des Moines 9, Iowa. Mar. 21, 1944. 3 pp. Mimeo.

A physiotherapist's lecture to mothers of spastic children; includes questions and answers on specific problems of the parents.

163. Attitude of Companies on Rehabilitation - Position of 61 Capital Stock Carriers Stated by Association of Casualty and Surety Executives. The Weekly Underwriter. Feb. 19, 1944. 150:8:433,456-7.

Reports on the Association's "Declaration of Attitude" on employment of the handicapped, and the model second injury law which it has prepared. [See also articles 179 and 180 in this Bulletin.]

164. Baugh, Harold. An Amputee Speaks. Courage, Mar., 1944. 4:26:1-5,19.

Advice to the prospective wearer of an artificial leg.

165. Berger, Clyde. I Have Been a Foreigner in my Own Land. Spastic Review, Mar., 1944. 4:4:5-8,40-49.

Autobiography of a young man with cerebral palsy. Author is now research librarian at Institute of Logopedics, University of Wichita.

166. A Bibliography on Cerebral Palsy - 1941 through 1943. March, 1944. Bureau of Information, National Society for Crippled Children, Elyria, Ohio. 25 pp. Available only on loan from the Bureau of Information, National Society for Crippled Children.

Annotations and quotations included in this bibliography are copied from issues of the Bulletin on Current Literature, published monthly by the Bureau of Information.

167. A Bibliography on Workmen's Compensation as it Affects the Employment of the Physically Handicapped. Bureau of Information, National Society for Crippled Children, Elyria, Ohio. Mar. 31, 1944. 3 pp. Mimeo. Free.
168. Byars, Louis T., M.D. and Kaune, Mildred McNeillus, R.N. Plastic Surgery - Its Possibilities and Limitations. The American Journal of Nursing, Apr., 1944. 44:4:334-342.
169. Carlyle, John. Sound Hopes in Maimed Bodies. Nation's Business, Mar., 1944. 32:3:58,60,62,64,66.

Suggests that instead of "Mother's overtender ministrations" for the men injured in industry, rehabilitation programs like those in Army convalescent hospitals be provided.

170. Cartwright, Morse A. Marching Home. The Bureau of Publications, Teachers College, Columbia University, New York. 1944. 43 pp.

"Considerations relating to the training of...workers...to be concerned with the educational, vocational, social, and personal adjustment and the rehabilitation of men and women leaving government service."

171. Children and Adults Find Health in Unique Curative Workshop. Forth, Apr., 1944. 109:4:14-15.

Describes the Occupational Therapy Curative Workshop of Richmond, Virginia.

172. Coates, C. B. Rehabilitation of Veterans Must Begin Now. Factory Management, Feb., 1944. 102:2:82-92.

Outlines and recommends a program for industrial medical and personnel departments dealing with disabled veterans. Describes programs in operation at Ford Motor Company, Eastern Aircraft Division of General Motors Corporation, Arma Corporation [See articles 187 and 215 in this Bulletin], Caterpillar Tractor Company [See articles 193 and 223], and Occupational Planning Committee of Greater Cleveland.

173. Collens, Clarence L. Training the Disabled for Industry. The Cleveland, Mar., 1944. 18:11:7,28,30-31.

Description of services at the Rehabilitation Center of the Association for the Crippled and Disabled, Cleveland, Ohio

174. Dietary Deficiency and Poliomyelitis. The Journal of the American Medical Association, Apr. 1, 1944. 124:14:986-987.

175. Dorsett, J. D. The Handicapped Worker: an Obligation - an Asset. Savings Bank Journal, Mar., 1944. 25:1:12-13,20.

The Assistant General Manager of the Association of Casualty and Surety Executives reviews studies which have been made of the efficiency, reliability, absenteeism, and accident records of physically handicapped workers. He says "there is no sound reason why persons with certain physical defects should not be employed." [See also articles 163,179 and 180 in this Bulletin.]

176. Emberton, Mary E. The Public Health Nurse in the Education of the Handicapped Child. Journal of Exceptional Children, Apr., 1944. 10:7:180-181,186.

Shows that nurses "...are auxiliary workers in the education of handicapped children: that they find these children, see that proper diagnoses are obtained and recommendations made; that these diagnoses and recommendations are interpreted to those responsible for education of these children; that home conditions be made adequate for physical and mental growth."

177. Employment of Disabled Persons in Great Britain - a Government Bill, The. International Labour Review, Mar., 1944. 49:3:373-376.

Summarizes a bill introduced in the British Parliament Dec. 2, 1943. "The Bill includes provision for the vocational training and industrial rehabilitation of disabled persons, the registration of such persons, the imposition upon certain employers of a requirement to employ a quota of registered disabled persons, the reservation of vacancies in certain employments for registered disabled persons, and assistance for severely disabled persons in obtaining employment or independent work under special conditions."

178. Employment of Physically Handicapped. Liberty Mutual Insurance Co., Boston, Mass. 8 pp. plus separate bibliography.

Prepared for industrial executives and personnel men. Outlines "principles and mechanics of the plant program," explaining use of job and disability

analyses in placement. Recommend establishment of a "properly controlled and advised rehabilitation clinic" in all industrial centers.

179. Executives Advocate Second Injury Funds. Eastern Underwriter, Feb. 18, 1944. 45:7:30,38.

[See articles 163, 175 and 180 in this Bulletin.]

180. Executives Body Tells Stand on Disabled Workers. The National Underwriter, Feb. 17, 1944. 48:7:19,22.

[See articles 163, 175 and 179 in this Bulletin.]

181. Greenwood, Annie S. Rolling Her Way to Triumph. The Etude, Apr., 1944. 62:4:205,246-247,252.

Success story of Ethelwynne Kingsbury, vocal teacher and President of the Minnesota Federation of Music Clubs, who has been confined to a wheelchair since she was ten years old.

182. Greve, Bell. The Curative Workshop. Virginia Medical Monthly, Apr., 1944. 71:4:180-182.

183. Hall, Grace Igo. Neurosurgery at Fitzsimons Hospital. Hygeia, Apr., 1944. 22:4:264-267,294.

"The neurosurgical section, which was added a year ago to Fitzsimons General Hospital [largest U. S. Army General Hospital] and which is similar to sixteen other neurosurgical sections located in different army hospitals scattered over the United States, cares most skilfully for nerve injuries and brain and spinal impairments, to the extent that many of these cases which would have been considered fatal years ago are returned to active life."

184. Hurt, Sue P. The Occupational Therapist and the Problems of Producing Her. Virginia Medical Monthly, Apr., 1944. 71:4:188-190.

185. Huse, Betty, M.D. The Care of Children with Rheumatic Fever. Journal of Exceptional Children, Apr., 1944. 10:7:163-169.

186. Index. The Crippled Child Magazine, Volume XXI, 1943-1944. 1 pg. National Society for Crippled Children, Elyria, Ohio. Free. [Sent to regular Bulletin recipients.]

187. Industrial Training Speeds Rehabilitation. American Machinist, Mar. 2, 1944. 88:5:97-98.

Tells how the Arma Corporation in Brooklyn is providing a paying job, industrial training, and occupational therapy for convalescent servicemen. [See also articles 172 and 215 in this Bulletin.]

188. Industry's Wartime Ally. The Curative Workshop of Milwaukee, 750 N. Eighteenth Street, Milwaukee, Wisconsin. 4 pp. 1943. Free from Bureau of Information, National Society for Crippled Children, Elyria, Ohio.

Pictures and statistics on rehabilitation of the industrially injured.

189. Institute for the Crippled and Disabled - Summary of Results July 1, 1942 - June 30, 1943. The Institute, 400 First Ave., New York 10. 16 pp.

190. James, W. C. 94,500 Accident Deaths in 1943. Safety Education, Mar., 1944. 23:7:section 1:246-247,260-261.

Statistics from the preliminary 1944 edition of "Accident Facts" show that 9,700,000 persons were injured by accidents in 1944; one out of every 14 persons in the U. S. suffered a disabling injury during the year.

191. Kansas Poliomyelitis Epidemic Statistics, 1943. Kansas State Board of Health. 5 pp. Mimeo. 1944.
192. Lee, John J., Ph.D. Our Institutions and Services for the Handicapped Improve Our Way and Condition in Life. Journal of Exceptional Children, Apr., 1944. 10:7:161-162,192.
193. McClure, A. M. The Peoria Plan for Human Rehabilitation. Manufacturers' News, Mar., 1944. 58:3:12-13,24.

[See also articles 172 and 223 in this issue.]

194. Miller, Kenneth R. A Private Resource for the Physically Handicapped. Monthly Bulletin Indiana State Board of Health, Feb., 1944. 47:2:27,48.

The Executive Secretary of the Indiana Society for Crippled Children tells of the Society's program of services for the cripple and of cooperation with other agencies providing such services.

195. Miller, Loretta Maude. A Community Guidance Program to Meet More Fully the Needs of Crippled Youth in the East Harlem Area. Department of Education of the Exceptional Teachers College, Columbia Univ., New York. 120 pp. Mimeo. \$1.00. 1943.

Doctoral dissertation presenting:

"A. An accumulation of material concerning the orthopedically handicapped from 14 to 21 years of age [in East Harlem, New York City] that will be valuable to the schools, the Dept. of Health, and to social service organizations.

B. An accumulation of material concerning the community...

C. An organized plan of community and school co-operation to meet to some degree the vocational and social needs of orthopedically handicapped youth in the East Harlem area."

196. Morey, A. A. Rehabilitation. Safety Engineering, Apr., 1944. 87:4:61-68.

Suggests a rehabilitation and placement program for large industries which can utilize crippled workers, and a cooperative program enabling smaller industries to develop similar rehabilitation and placement facilities.

197. Nelson, Harry E. A Proposal for National Rehabilitation. California Journal of Secondary Education, Dec., 1943. 18:8:470-472.

Proposes a natural-resources conservation program, similar to that of the Civilian Conservation Corps and utilizing the C.C.C.'s abandoned camps, for convalescent war veterans.

198. Rehabilitation of Discharged Service Personnel in New Zealand, The. International Labour Review, Feb., 1944. 49:2:197-205.

"...a comprehensive survey of the first annual report of the Rehabilitation Board which was set up in New Zealand under the Rehabilitation Act, 1941. The report covers the period from the date when the Board began its work in February, 1942, to the end of March, 1943."

199. Rehabilitation in Great Britain. British Information Services, 30 Rockefeller Plaza, New York 20. Jan., 1944. 12 pp.

Reports on legislative provisions and proposals in Great Britain in the last seven years, describes occupational therapy services in the Army and for civilians, and explains the vocational "assessment" and placement services for war-disabled veterans.

200. Report on Health and Safety Project of the Girl Scouts 1939-1942. Girl Scouts, 155 East 44th Street, New York 17. 1944. 54 pp.

Includes a brief summary of development of Girl Scouting among handicapped.

201. Return to Arms. Newsweek, Apr. 3, 1944. 23:14:104-5.

On the physical reconditioning program for soldiers convalescing at Schick General Hospital, Clinton, Iowa.

202. Salisbury, Paul A. Needed--A National Foundation for Cerebral Palsy. Hospitals, Apr., 1944. 18:4:50-53.

203. Sallak, V. J. A Community Approach to the Rehabilitation of the Handicapped. The Journal of Educational Sociology, Feb., 1944. 17:6:342-351.

"The coherent and well-knit program of service offered in Cuyahoga County, Ohio, of which Cleveland is an integral part," is presented to show how public and private agencies can pool their services to more nearly meet all the needs of all the handicapped. Special mention is made of the county tuberculosis hospital, the Association for the Crippled and Disabled, and the Cleveland office of the state rehabilitation service.

204. Samuel, Helen E. Vocational Rehabilitation - Legislative Review. Occupations, the Vocational Guidance Magazine, Mar., 1944. 22:6:370-371.

Brief digest of provisions of Vocational Rehabilitation Amendments of 1943.

205. Samuel, Helen E. War's Effect on Child Labor Legislation in 1943. Occupations, the Vocational Guidance Magazine, Mar., 1944. 22:6:351-353.

206. Schmitz, Marian E. The Use of Volunteers in Case Work. The Family, Apr., 1944. 25:2:50-57.

A district secretary of the Family Welfare Association of Milwaukee describes the cooperation of a volunteer with a professional social worker in two cases, one of which involves a cerebral palsied child.

207. Schools for Occupational Therapy Technicians. The Journal of the American Medical Association, Mar. 25, 1944. 124:13:917.

208. Schools for Physical Therapy Technicians. The Journal of the American Medical Association, Mar. 25, 1944. 124:13:918.

209. Seeing Them Through - A Guidance Program for the Physically Handicapped. Ortho Vocational Service, 506 Cuyahoga Bldg., Cleveland 14, Ohio. 2 pp. folder.

210. Shaw, Forrest L. Canada Says No Pencil Selling! The Kiwanis Magazine, Apr., 1944. 29:4:8,40.

[more]

"Canada assures returned vets their pre-war jobs; vocational or financial assistance for those who are disabled."

211. Shortley, Michael J. A Broadened Program. Manpower Review, Mar., 1944. 11:3:14-15.

The Director of the new Office of Vocational Rehabilitation in the Federal Security Agency outlines the broadened rehabilitation program made possible by the Vocational Rehabilitation Amendments of 1943. New features discussed are: availability of federal funds according to need and state financial participation [formerly according to state population], federal payment of all state administrative costs and all costs for war-disabled civilians' cases, provision for mentally as well as physically handicapped clients and for the blind, and federal financial participation in physical restoration and maintenance costs. Discusses briefly each of "nine integral factors" in "a complete cycle of vocational rehabilitation."

212. Shortley, Michael J. War and Post-War Rehabilitation of Handicapped Persons. The Physiotherapy Review, Mar.-Apr., 1944. 24:2:61-63.

[Contains essentially the same information as article 211 in this Bulletin.]

213. Special Centres for Training the Disabled for Industry. Production and Engineering Bulletin, Mar., 1944. 3:16:112-116.

Reports on successful employment of severely disabled persons trained in special residential vocational centers in Leatherhead and Exeter, England.

214. Stamm, T. T. The Causes and Treatment of Knock Knees in Young Children. Mother and Child, Mar., 1944. 14:12:237-238.

215. Stevens, Alden. Here's Hope for War Wounded. Survey Graphic, Mar., 1944. 33:3:165-167.

An enthusiastic report on the combined occupational therapy and war production program sponsored in two New York naval hospitals by the Arma Corporation. Under the prescription of the physicians and the supervision of the therapist, about forty wounded men are working on many processes involved in manufacturing Arma's war product, each doing jobs which have been assigned for their curative values. At the same time, they are acquiring skills to be applied in regular factory employment at Arma when they are discharged, and are earning at the regular piece rate for the work they do. [See also articles 172 and 187 in this Bulletin.]

216. Story of the Easter Seal. National Society for Crippled Children, Dept. of Educational Publicity, Elyria, Ohio. 1944. 20 pp. 10¢.

"Containing mounted seals, a historical note, and other relevant comments for collectors and interested persons."

217. Thomas, Atha, M.D. The Permanent Prosthesis. The Journal of the American Medical Association, Apr. 8, 1944. 124:15:1044-1046.

218. Thompson, Lieut. Col. T. Campbell. Temporary Prostheses. The Journal of the American Medical Association, Apr. 8, 1944. 124:15:1041-1044.

219. Titus, Lieut. Col. Norman E. Rehabilitation Program at Lawson General Hospital. The Bulletin of the U. S. Army Medical Department, Apr., 1944. No. 75, pp. 88-93.
220. Van Horn, A. L., M.D. and Lesser, A. J., M.D. Combating Epidemics of Poliomyelitis. The Child, Apr., 1944. 8:10:157-159.
221. Vance, Lt. Leroy, USN and Mueden, 2nd Lt. George, AUS. The Wounded Have a Future. The Saturday Evening Post, Mar. 11, 1944. 216:37:20-21, 91-92.
222. Vocational Rehabilitation. North Carolina Public School Bulletin, Apr., 1944. 8:8:8-9.

History and statistics on the North Carolina rehabilitation program.

223. Vonachen, H. A. Practical Program for Human Rehabilitation; Peoria Plan. Mechanical Engineering, Mar., 1944. 66:3:178,204.

How the Caterpillar Tractor Company and other employers have joined with interested community groups in setting up a working organization whose responsibility it is to place disabled civilians and veterans in suitable employment. [See also articles 172 and 193 in this Bulletin.]

224. Vossler, Henry. Work Cures RAF Wounded. The New York Times Magazine, Apr. 2, 1944. Section 6, pg. 38.

A Royal Air Forces hospital operating a curative workshop produces more per man-hour than the aircraft factory which supplies the jobs.

Periodicals

[For others, see lists in previous 1944 issues.]

- American Machinist, 330 W. 42d St., New York. Bi-weekly. \$5 year; 35¢ copy.
- Bulletin of the U. S. Army Medical Department, Carlisle Barracks, Pa. Mon. \$2; 25¢.
- California Journal of Secondary Education, 170 S. Van Ness Ave., San Francisco. 8 times a year. \$3; 50¢.
